PROFILE

Second-year Software Engineering student at Vilnius University with a strong foundation in software engineering, AI/ML, and full-stack development. Demonstrated ability to build production-grade projects independently, including an automated EUR/GBP forecasting tool and a high-fidelity, HCI-verified e-commerce prototype. Certified by IBM and Google in AI, frontend development, and enterprise design. Seeking opportunities to apply technical depth and design-forward thinking in AI, data analytics, or product development contexts.

EDUCATION

Vilnius University (Vilniaus universitetas)*Vilnius, Lithuania*

*Bachelor's Degree in Software Engineering E-Service Systems(Programų sistemas,E. paslaugų sistemas)*Expected 2028

Relevant Coursework: Artificial Intelligence · Machine Learning · Statistical Data Analysis · Data Structures & Algorithms · Software Engineering I/II · Human-Computer Interaction · Service Oriented Architecture · Web Programming · Object-Oriented Programming · Databases · Computer Networks · Environmental Economics · E-service Design Principles · Audiovisual Technologies · Computer Architecture · Operating Systems · Applied Mathematics

PROJECTS

WhatsTheRate? — EUR/GBP Forecasting Tool*Feb 2026 – Present*

AI/ML Developer & Creator[github](#) / [live: streamlit app](#)

- Engineered an end-to-end, AI-driven forecasting system predicting daily EUR/GBP exchange rates, combining an automated data pipeline with a machine learning model and interactive web app.
- Built a fully automated daily data pipeline using Python and YAML, ensuring real-time data ingestion and accuracy without manual intervention.
- Trained and deployed a Scikit-Learn regression model for financial price prediction, integrating it into a multi-page Streamlit application.
- Containerised the project workflow with Docker and managed version control via Git/GitHub.

ZORA — E-Commerce Prototype*Jan 2026 – Present*

Front-End & UX/UI Developer[Vanilla JS](#) · [HTML5](#) · [CSS3](#) · [JSON](#)

- Built a 17-file, 8-page high-fidelity e-commerce prototype for a Gen-Z tech accessory brand using HTML5, CSS3, and Vanilla JavaScript, with zero build tools or frameworks.
- Achieved 85% HCI compliance (up from 68%) by auditing interactions against 25 cognitive/physical design rules drawn from Miller, Norman, Fitts, and Abowd & Beale, then systematically remediating violations.
- Implemented advanced UX features: vibe-based product discovery via URL query parameters, an undo-capable cart toast notification system, auto-saving checkout with localStorage draft recovery, and a cinematic preloader sequence.
- Engineered a centralised state management module (state.js) persisting cart, wishlist, and theme preferences across sessions, with optimistic UI updates.

CERTIFICATIONS

IBM Frontend Developer Professional Certificate*Feb 2026*

Skills: UX/UI Design, React.js, Cloud-Native Applications, Web Design, NoSQL, GitHub, Agile Web Development.

IBM Enterprise Design Thinking Practitioner*Feb 2026*

Skills: Enterprise Design Patterns, user-centric problem-solving frameworks.

IBM SEO Mastery: From Fundamentals to GenAI & GEO Strategies*Jan 2026*

Skills: SEO, Generative AI for web optimisation, GEO strategies.

Google AI Essentials*Dec 2025*

Skills: Artificial Intelligence, generative AI tools and enterprise application.

VIRTUAL JOB SIMULATIONS

Wells Fargo — Software Engineering Job Simulation (Forage)*Jan 2026*

Focus: agile methodologies, enterprise software development principles.

Deloitte Australia — Data Analytics Job Simulation (Forage)*Dec 2025*

Focus: complex dataset analysis, forensic technology, and business intelligence extraction.

SKILLS

Languages & Frameworks: Python · JavaScript (ES6+) · HTML5 · CSS3 · React.js · PHP · C# · C++ · SQL · YAML

Tools & Platforms: Git · GitHub · Docker · Scikit-Learn · Streamlit · Adobe Creative Cloud · LibreOffice

Design & Methodology: UI/UX Design (UED) · HCI · Enterprise Design Thinking · Agile · DevOps · SEO · GenAI

Data & AI: Machine Learning · Statistical Data Analysis · Automated Pipelines · Data Structures & Algorithms

LANGUAGES

English: Native / Bilingual

French: Professional Working Proficiency

Lithuanian: Limited Working Proficiency
